Frame Tents
and Branded Parasols

Pop Up Tent

Thanks to the PopUp scissor structure it is easy and quick to unfold the frame of the tent. As a result, it is very often chosen by many of our clients. Each tent can be also made with individual branding. Additionally available equipment like walls, awnings or flags give the character and utility.

Dome Tent

The tents are based on extremely stable aluminum frame structure. Together with arches and walls create an eye-catching design. Several dome tents can be connected together to create bigger structures. Easy-to-set-up tent with many design options.

Star Tents

Star-shaped Tents are easy-to-assemble and provide huge advertising space. They are also available in a multi-mast version to arrange even larger areas. Various types of walls are available for each tent.

Branded Parasols

We offer parasols in several models, including multi-panel with different bases and masts. Branded parasols are perfect as promotional equipment for beer gardens, as well as during various events.

3D PopUp Tents

We have developed 3D structures that are assembled on the roof of the tent, making standard tents getting an unusual form, and the advertising space enlarged. The 3D element itself can take many shapes, so „Get out of the box with us“;))

Promotional

Furnitures

Seat Cubes

The sitting cubes are popular advertising media because they are handy and convenient. They transform your event into a cozy lounge in no time. Each side of the cube can be branded.

Loungers

Loungers come in several different options, e.g. with or without armrests and are individually branded. Some models are even equipped with a cup holder allowing your customers to relax at high level.

Poufs

It is inflatable small furniture that is the perfect advertising medium if you change location frequently. Small in transport, gives a great effect.

Beach
Flags

Beach Flags

Despite the fact that beach flags are very common advertising media, should be of a quality that matches the place of display. A wide range of bases, various types of adapted to use masts, a multiplicity of shapes and sizes, small dimensions during transport and quick assembly make it a valued and sought-after form of visual advertising.

A-frames | Stowaway | Sandwiches

Although these lightweight structures come in many different shapes and sizes, they require very little storage space, which is their main advantage. The graphics themselves can be changed many times, thanks to which the a-frames become an extremely universal advertising medium.

PrintCenter

Lightboxes and Displays Walls

In our offer you will find all sorts of displays in various configurations - free-standing, wall mounted, hanging, magnetic, illuminated, double-sided and many others. All available in various sizes, so we are able to match each box to the place of exposure.

Pop Up Counters

Counters - advertising, conference, tasting, promotional stands, event. Folding and unfolding are very easy and do not require the use of tools. Our counters are based on rigid and stable structures, with the possibility of self-changed graphics. They come in a variety of shapes, with prints on fabrics or PVC, also with additional elements such as a shelf or a topper.

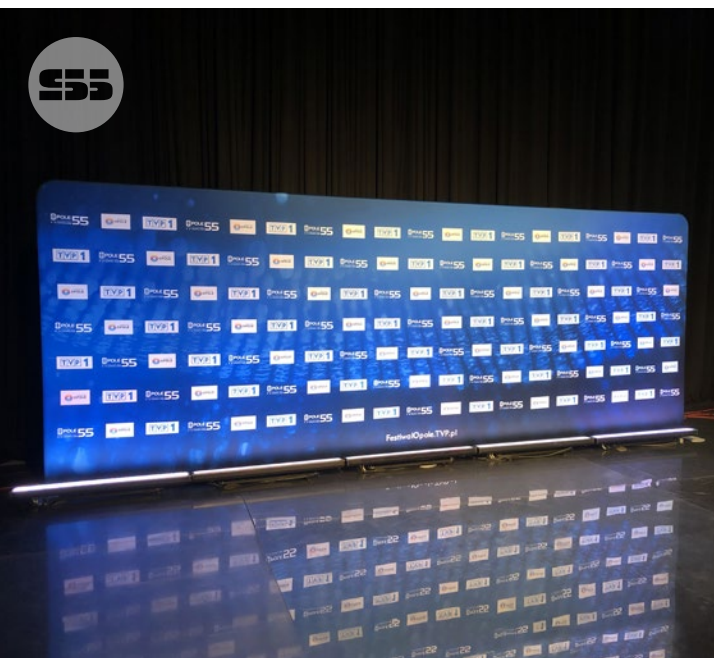

Rollups

They are extremely quick and easy to install and are available in several widths, with the possibility of replacing its graphics alone. After the presentation, the graphics are folded into a handy case.

EVO Evolution Systems

Evolution walls and stands are extremely modern, unique and easy-to-use exhibition systems that can be freely arranged. Aluminum tubular frames are easy to assemble, and the sheathing made of stretch material looks elegant and aesthetic. We are the only ones who make sheathing with an additional blackout option so the graphics do not show through to the other side of the wall.

Customized EVO Evolution systems

Evolution systems are also found in many individual and custom shapes so they can meet the role of a ready-made promotional stand. As well as standard EVO wall, consist of an aluminum frame and interchangeable graphics.

Large Format Prints

Our machinery park consists of all large-format printing technologies available on the market, i.e. solvent, UV, sublimation and latex. Thanks to this, we are able to print out virtually any available material, such as banner, mesh, blockout, backlight, flag fabrics, polyesters and other textiles with rigid substrates such as pvc, dibond, polypropylene, etc.

Large Format Prints with 3D Application

Our large-format prints enters to the another dimension - with 3D Applications. These are relatively light pneumatic structures, illuminated optionally, which, combined with the printouts, attract attention, creating a WOW effect. All projects are designed in detail and individually, taking into account the location and possibilities of the place.

3D Advertising on football fields and sport events

We create extremely effective 3D advertisements in the form of stickers, banners or carpets, which work well on sports facilities like stadiums or sport halls, as well as on race or marathon routes.
